EDUCATION

Vasavi College of Engineering

B.E. in Computer Science; CGPA: 8.95

Hyderabad, India

2024 – 2028

Relevant Coursework: Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks

TECHNICAL SKILLS

Languages: Java, Python, C, JavaScript, SQL, HTML, CSS

Tools & Systems: Docker, Redis, Linux (WSL), Git, Postman

Frameworks: FastAPI, Node.js, React, Flask, PostgreSQL, Tailwind CSS

Interests: Backend Engineering, DevOps, AI Systems, Distributed Systems

PROJECTS

Verso: AI Documentation Tool | *React, Node.js, FastAPI, Groq API, RAG*

Dec 2025

- Developed a collaborative documentation tool using **WebSockets** for real-time state synchronization.
- Implemented a **RAG pipeline** utilizing **AST (Abstract Syntax Tree)** parsing to map code hierarchies, ensuring the AI retains functional context and dependency logic during generation.
- Designed an asynchronous backend to handle heavy code ingestion and document compilation without blocking the user interface.

College Portal System | *FastAPI, PostgreSQL, Redis, Docker*

Nov 2025

- Created a portal for students to view grades and attendance by pulling data from institutional databases.
- Used **Redis** to cache student data and store session IDs after login, reducing database hits by 30%.
- Used **Docker** to containerize the app, making it easier to deploy and manage environment variables.

AI Email Generator | *Python, Flask, Groq API, HTML, CSS*

Mar 2025

- Built a tool that generates professional emails based on user prompts using the Groq API for fast inference.
- Used asynchronous requests to handle API calls so the application doesn't freeze during generation.

CERTIFICATIONS

NPTEL Programming in Java | *Elite + Gold Badge*

2025

NPTEL Programming in Python | *Elite + Silver Badge*

2024

Infosys Springboard | *Java Programming Certification*

2025
